

Declaration of Compliance WEEE

EU Directive 2019/290 of 19 February 2019 establishing the format for registration and reporting of producers of electrical and electronic equipment to the register.

WEEE stands for **W**aste from **E**lectrical and **E**lectronic **E**quipment.

WEEE compliance aims to encourage the design of electronic products with environmentally-safe recycling and recovery in mind.

RoHS compliance dovetails into WEEE by reducing the amount of hazardous chemicals used in electronics manufacture. RoHS regulates the hazardous substances used in the manufacture of electrical and electronic equipment (EEE), while WEEE regulates the disposal of this same equipment. All applicable products for the EU market must pass WEEE compliance and carry the "Wheelie Bin" mark.

Kjærulf Pedersen A/S hereby declares that the products included in the provision, manufacture, and sale comply with the requirements of WEEE.
